

10/573 526

USPTO, application number : 10/573,526

Inventor : Normand Beaudoin

12 January 2010

Note of January 12, 2-10 to the examiner, Miss Mary Davis

Turbinary Engines

In regards to your last remarks, dated December 15, 2009, we note that some supplementary clarifications could be required in connection to the following three points:

- A) Links and relations between material limitations and geometrical and kinetic limitations
- B) Additional fundamental differences in relation to the quoted inventors
- C) Demands subjected in February, 2009 must be structured from those subjected in 2006
